

My linear art design is a cool looking x. And the reason for that is because I didn't know what to do so I just did a whole bunch of lines and it turned out to be a x witch to me is pretty cool. I'm going to color my x a whole bunch of cool colors like red, green, black, and maybe yellow. And that's what I'm going to do for my linear art design.

$$y = -\frac{4}{5}x + 17$$

$$y = -\frac{4}{5}x + 17$$

$$y = 1x$$

$$y = -1x$$

$$y = \frac{3}{4}x - 17$$

$$y = \frac{3}{4}x - 17$$

$$y = \frac{3}{3}x - 17$$

$$y = -\frac{3}{3}x - 17$$

$$y = \frac{3}{3}x + 17$$

$$y = \frac{3}{3}x + 17$$
